Potent Agents for Change A Presentation by Jennifer Davis of Balance Alaska

Date: Wednesday, July 28th
Time: 7pm-8pm

Location: Alaska Center for Acupuncture, Palmer AK (in the Koslosky Center, above Vagabond Blues)

Locally owned, independent businesses are potent agents for change who are uniquely prepared to take on economic, community, and environmental challenges with agility and a deep connection to the places in which they operate. Local businesses are more than profit-makers; they are neighbors, community builders, and the starting point for social innovation. In this presentation learn how local, independent business networks throughout North America are transforming their economies into community-centered, green, fair places to live and work through a focus on green jobs, sustainable industries, investing locally, and buying local first. Join us in this lively discussion to discover how this “Local Living Economy” movement is already transforming our community and find out what “Buying Local” really means for you and your family.

In this discussion we will also explore:

- What local people and businesses regularly buy that is or could be supplied locally by socially and environmentally responsible independent enterprises
- Which existing local businesses are practicing “living economy” values
- What collaborative “living economy” efforts are already underway in our area
